# BOHEMIA SPORT <sup>LION</sup>

BOHEMIA SPORT is a brand with strong roots in Czech and European market since 1928. Our main product in the present is our wooden deckchairs made out of high quality beech wood. Our complete assortment includes stools, chairs, flags, sledges, hockey sticks and wooden briquettes.

Carpenter, printing, sewing and assembly workshop in one company ensures minimal time of realization. We focus on high quality, professional customer service and upholding agreed dates.

Our products are certificated and they are produced with applicable standards. Cooperation with our company is comfortable and creative, so we can produce the best quality products.

traditional Czech production

Designed for recreational use. Wooden construction using plastic parts. Strap seat (100% PES). Sheet steel base. Material beech. SZU certification.

*The tow strap is not part of the sledge.*

*The sledge can be supplemented with a enclosure.*

# Gabreta 100 cm

Sports sledges for adults designed for sledging on modified toboggan runs. They are controllable by pressing the knees at the protruding end of the sledge. High-quality beech wood bent according to traditional procedures. Strap seat (100% PES). Material: beech.

*The pulling strap is part of the sledges.  
The sledge can't be supplemented with an enclosure.*

# Gabreta 120 cm

Sports sledges for adults designed for sledging on modified toboggan runs. They are controllable by pressing the knees at the protruding end of the sledge. High-quality beech wood bent according to traditional procedures. Strap seat (100% PES). Material: beech.

*The pulling strap is part of the sledges.  
The sledge can't be supplemented with an enclosure.*

# Atawa 125 cm

Made only of high quality beech wood. Very good grip on hard and icy tracks thanks to the angle of the sledge 25° and the footprint width of about 44.5 cm. Wooden valerian is attached to rubber beds. The sled is well controlled by carrying weight and pressing on the knees. The padded seat and the easily adjustable low seating position give the rider a very safe riding feel. Sporty driving characteristics are obtained by these sleds thanks to the special shape of the base, which are ground, easily replaceable and made of high-quality steel designed for racing. Strap seat (100% PES).

*The pulling strap is part of the sledges.  
The sledge can't be supplemented with an enclosure.*

# Lion 120 cm

Sports sledges of modern appearance. Suitable for younger and adult tobogganers. The seat is knitted with straps made of waterproof fabric. Material beech.

*The pulling strap is part of the sledges.*

*The sledge can't be supplemented with a enclosure.*

# Sledge with horn-shaped front 100 cm

Designed for recreational use. The main advantage is storage. Easily assembled with 4 screws with plastic head. By pulling down the wooden valerian, there is no spontaneous movement of the sledges and the sled has perfect driving characteristics. Slatted seat. Material beech.

*The tow strap is not part of the sledge.*

*The sledge can be supplemented with a enclosure.*

# Davos 100 cm

Designed for recreational use. The main advantage is storage. Easily assembled with 4 screws with plastic head. By pulling down the wooden valerian, there is no spontaneous movement of the sledges and the sled has perfect driving characteristics. The sledges are equipped with a protective plastic cap at the front. Slatted seat. Material beech.

*The tow strap is not part of the sledge.*

*The sledge can be supplemented with a enclosure.*
